

TAKTO

Mathias V

27

REGION

Brussels - Leuven - Antwerp

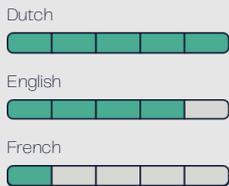

PROFILE

During my studies, I established a solid foundation in single programming languages and gained hands-on experience with .NET, HTML, and modern JavaScript frameworks such as Angular and React. I also developed skills in database management, network configuration, and software development methods to create reliable applications.

PERSONAL SKILLS

- ✓ AT EASE WITH REPETITIVE TASKS
- ✓ DISCIPLINED
- ✓ INDEPENDENT
- ✓ ORGANIZED
- ✓ PATIENT

Ventigrate

Ventigrate

Web development

Internship

Mathias had to create a small darts application for internal use for Ventigrate. He created this using Angular as his frontend and a .Net API to retrieve data from the database.
